

Supplies Needed

#39999015 The Snuggle is Too Real Iron on Transfer (1)

Patterned Pillowcase or Approx. ½ yard Fabric

Skeins of Yarn (in desired color(s))

Fabric Glue

Polyester Fiber Fill Stuffing (1 bag)

Cardboard or Thick Paper

Tools Needed

Sewing Machine

Sewing Needle and Thread

Iron

Scissors

Fine Point Marker Pen

Techniques to Know

Straight Stitch

Pompom Making

INSTRUCTIONS:

1. Cut a 12" length of yarn.
2. Trace pompom maker pattern onto cardboard or thick paper. Repeat so you have two.
3. Join the two cut out patterns together. Wrap multiple layers of yarn around the joined pattern pieces. Holding the lower edges of yard snugly together with your thumb and fingers, place the bottom edge of the scissors down between the top of the two joined pattern pieces and cut the wrapped yarn on the top side of the pattern. (*Two different colors of yarn can be wrapped, together, to make multi-colored pompoms, if desired.)
4. While still snugly holding the bottom edge of the yarn onto the joined pattern pieces, carefully slide the middle of the 12" length of yarn down between the top

side of the joined pattern pieces and snugly tie it together into a secure knot that gathers the middle of the yarn together. Slide the pattern pieces out. Trim the pompom so it is even.

5. Cut two 12" x 17" lengths of fabric. Place the two fabrics together, right sides facing in. Leaving a ½" seam allowance, stitch the edges of one short and two long sides together. Sew half of the remaining short side of the pillow together. Turn pillow right side out.

6. Center the transfer on one side of the pillow and follow the iron on instructions.

7. Fill pillow with polyester fiber fill. Turn remaining salvage edges in on the open end of the pillow and machine or hand stitch that rest of that end of the pillow together.

8. Use fabric glue to securely glue the base of the pompoms onto the other side of the pillow. Be sure to spread the glue and pompoms out and firmly press the pompoms onto the fabric.

9. Allow to dry.
